TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML, CSS, Python, Java, SQL

Frameworks: React.js, Next.js, Node.js, Express.js

Databases: MongoDB, Firebase, MySQL

Tools: Git, GitHub, Postman, Docker, VS Code, **Power BI**

Key Competencies: Full-Stack Development (MERN), API Integration (REST), **Web Performance Optimization**, Unit Testing, Agile/Scrum, Debugging, **Problem Solving**, Technical Support, **Customer Service**, Microsoft Exchange, DNS, Email Routing, Network Security, Troubleshooting **Microsoft 365 Applications** (Outlook, Teams, OneDrive, SharePoint, Intune)

WORK EXPERIENCE

Allied Universal

Security SOC Officer

Feb 2025 – Oct 2025

Waterloo, ON

- Supported SOC with technical escalations related to badge access, network security practices, and anti-virus program monitoring, demonstrating strong problem-solving and communication skills in handling difficult situations professionally.
- Managed incident reporting and customer support, ensuring high satisfaction in fast-paced environments.

Unmetered Technologies

Software Developer

Apr 2024 – Aug 2024

Dharamshala, IN

- Developed a Learning Management System (LMS) using React.js and integrated REST APIs with Laravel, enabling seamless content delivery for 1,000+ users while troubleshooting technical issues and ensuring compliance with accessibility standards.
- Designed and optimized hotel booking and pricing algorithms, integrating payment gateways, reducing transaction errors by 15%.

Gauge.ro

Software Developer

Jan 2023 – Nov 2023

Bengaluru, IN

- Migrated an eCommerce platform from WordPress to Next.js, enhancing SEO and overall performance.
- Developed responsive UI using React.js, Tailwind CSS, and optimized page load times with lazy loading, incorporating basic DNS and email routing knowledge for seamless integration.
- Led a React Intern's team to develop admin UI pages for an Ecommerce website app using Redux Toolkit for state management and Ant Design for scalable UIs, while providing user support and training.

PROJECTS

XDevVerse – An online Hackathon Platform

Aug 2025 – Oct 2025

- Led development of an online hackathon platform using MERN stack, TypeScript, Material-UI (MUI) for responsive styling, and integrated Groq API with Llama model for AI-driven suggestion ideas, content generation, and moderation features, including troubleshooting integration issues.

ML Research paper

Jan 2023 – July 2023

- Authored paper on fall detection with 92% accuracy using Python and ML algorithms.

EDUCATION

Conestoga College | GPA: 3.77/4.0

2024 – 2025

Postgraduate Diploma in Web Development

Kitchener, ON

VIIT College | GPA: 9.3/10

2019 – 2023

Postgraduate Bachelor of Science, Computer Engineering

Pune, IN

Volunteer Experience

Student Engagement Program Mentor, Conestoga College

- Mentored 50+ students, designing daily activities and enhancing curriculum engagement, resulting in a 40% increase in active participation.
- Guided students in technical skill development, fostering a collaborative learning environment.

Executive Lead, Google Developer Student Club (GDSC), Conestoga College.

- Led technical workshops on web development and APIs, sharing knowledge with 100+ students to enhance their coding skills.
- Organized 5+ tech events, coordinating with industry partners and increasing student attendance by 30%, demonstrating leadership in networking and event troubleshooting.
- Actively participated in Google Developer Group (GDG) Waterloo and Communitex events, contributing to community-driven initiatives with a focus on inclusive technical support.
